SOFTWARE DEVELOPER EXPERIENCE

USTRIVE | Remote | Austin, TX | February 2023 - May 2023 (Contract)

Full-stack Developer | Online Mentoring Platform

- Added and updated events to **Mixpanel** from the FE and BE to more accurately track mentor and student onboarding processes

MAPISTRY | Remote | Berkeley, CA | May 2022 - January 2023

Full-stack/Front-End Developer | Environmental, Health and Safety Compliance, SaaS Platform

- Developed the existing dashboard's form stencils, form submissions, and custom forms, using **SQL** queries and **React class methods**
- Migrated the FE stack from **Javascript**, **Backbone**, **React Redux**, and **Sass** to **Typescript**, **React**, **React Query**, **Styled Components**, and **MaterialUI** with feature flag functionality and **Figma** designs
- Implemented a new user flow on the main dashboard by organizing content into subpages, ensuring seamless functionality and integration with the existing site
- Implemented **Jest** unit tests on the FE and **Mocha** unit tests on the BE to ensure code quality

READY | Remote | New Orleans, LA | June 2020 - May 2022

Front-End Software Engineer | Task-based Health Medical Records Client-facing Platform

- Developed patient registration and encounter records used by responders, supervisors, and clinicians, leveraging **React**, **Formik**, **Yup** validations, and **Jest** for unit testing
- Implemented dynamic logic to manage visibility, accessibility, and interactivity of inputs and fields, integrating user role-based authorization with encounter and task lifecycle conditions
- Created several custom, reusable frontend UI **React** components (e.g., Pill, AlertBox, Avatar), using **Styled Components**, **Storybook**, and **Jest** unit tests
- Played an active role in conducting technical interviews of 15+ candidates
- Successfully migrated the app from **Javascript**, **React**, **GraphQL**, and **AWS Amplify**, to **Typescript**, **React**, **GraphQL/Apollo Client**

ERRUNDS | Remote | New York, NY | April 2020 - June 2020

Full-stack Developer Intern | Online Community Marketplace

- Implemented new user signup functionality and authentication
- Implemented cart screen features through the full-stack of the application using **Figma** designs
- Implemented past orders screen display using **GraphQL** queries
- Tech stack: **Javascript**, **React Native**, **React Redux**, **GraphQL/Apollo Client**, **Express**, **PostgreSQL**, **Sequelize**, **Node.js**

EDUCATION

JAVASCRIPT MASTERY | The Masterclass Experience

Certificate of Completion | Remote | September 2024

- [Portfolio](#) | My portfolio website | <https://github.com/DDVVPP/PortfolioV2>
 - Next.js, Typescript, Tailwind CSS, Framer Motion, Node.js
- [DevToday](#) | A content creation platform for developers | <https://github.com/DDVVPP/DevToday>
 - Clerk, Next.js, Typescript, Tailwind CSS, Shadcn, TinyMCE, Framer Motion, Zod, PostgreSQL, Prisma ORM, Supabase, Node.js
- [GitNote](#) | A knowledge and progress tracker | <https://github.com/DDVVPP/GitNote>
 - Next Auth, Next.js, Typescript, Tailwind CSS, TinyMCE, Zod, PostgreSQL, Prisma ORM, Supabase, Node.js

FULLSTACK ACADEMY | The Grace Hopper Program Software Engineering Immersive

Certificate of Completion | New York, NY | October 2019

- HydroBud | A gamified hydration tracker
 - React Native, Cloud Firestore, HTML/CSS, Node.js, Figma, Adobe Illustrator
- Cindr | A social choose-your-own-adventure game
 - React, React Redux, HTML/CSS, Node.js, Express, Sequelize, PostgreSQL, Phaser3
- Bart's Wigs | An e-commerce wig store
 - React, React Redux, HTML/CSS, Figma, PostgreSQL, Express, Sequelize, Node.js

UNIVERSITY OF ARIZONA | College of Architecture and Landscape Architecture
